To NMSU Faculty, Staff, and Academic Administration:

Student Success and Enrollment Management has compiled a list of services and contact information to assist you in supporting students during the remainder of the spring 2020 term. Because of the unique situation we are experiencing resulting in moving all courses to on-line delivery, we wanted to be sure you had a quick guide at your disposal to assist in answering any questions your students may have. You can contact either the Dean of Students or the Vice President for Student Success should you need additional information not included in this guide. Their contact information appears at the end of the document.

S/U Grade Options Extended and Eligibility Expanded

If, after attending classes in the new format and consulting with their instructors, academic adviser and financial adviser, any student determines the course delivery changes and/or their personal or family health situation is going to negatively impact their ability to successfully complete the Spring 2020 semester, the student can login to the Change Course Option page in my.nmsu.edu (direct link: https://banner.nmsu.edu/ssomanager/c/SSB?name=bwskfreg.P_ChangeCrseOpt) and change their grade mode, for any or all classes, from traditional letter grades to S/U grading. S/U grading will not have any effect on a student's GPA calculation, but will still allow the classes to count toward degree and financial aid requirements. This option should be exercised thoughtfully, so the choice will be available to all NMSU students through 11:59 p.m. on Wednesday, May 6, 2020.

Academic Advising and Student Support (CAASS)

Advisors are available to assist students with questions related to academic planning, registration, degree audit, GPA, career planning, and referrals to success resources. Students can go to https://advising.nmsu.edu/ to book an appointment or...
engage in a virtual chat with their advisor. Students can also email advising@nmsu.edu for quick questions.
